

Professional LED Light Manufacturer
For over 17 years

FEATURES & BENEFITS

- Volts:24V
- 3000K 4000K 5000K
or all single color for option
- Steady/Dimmable
- Engery saving
- Eco-friendiy PVC material
- IP67 waterproof

Flexible LED Wall Washer

WJ-LS-P2313-MONO-24V

TECHNICAL INFORMATION

■ Wall washer specifications

Model:	WJ-LS-P2313-MONO-24V
Material:	Eco-friendly PVC material
Bending direction:	30mm
Watts/M	12W/M
LED Type:	SMD3030 (Osr / Cre) 24 LEDs / m
Input voltage:	24V
Lumens/M	1016.84LM
Lifespan	50000 Hours
Bend Diameter	30mm
Dimension	23mmx13mm
IP Rating	IP67
IK Rating	IK08
Cut Points	25cm
PWWA Lens	15°,25°,45°,60°, 45x25
Certification	CE, RoHs, PSE

■ DESCRIPTION

Wilgex Flexible LED Wall Washers are a 24VDC working optical lens type strip light with various beam angles for different applications. Available in white color(3000K, 4000K, 5000K). Not only can it be used as an IP67 flexible LED strip singly, and it can be mounted into an aluminum profile kit with smart accessories used as rigid linear wall washer lighting. IP67 rated, Soft and bendable design makes it ideal for curved surface mounting to illuminate large surfaces, e.g., buildings or walls in outdoor areas, also suitable for ambient lighting in indoor applications.
