BONDWAY
MEDICAL

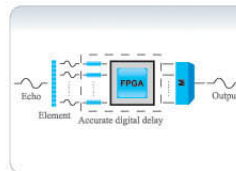

*Bondway, the very right friend you can rely on
Bondway, your global strategic business partner*

Probe super-broad band frequency & frequency conversion

Real-time dynamic aperture,
dynamic frequency scanning,
dynamic filter

Adopt digital beamforming

Innovative Full Digital Technology

- Advanced imaging technology
- New digital engine technology
- Real time dynamic aperture
- Imaging technology

SHENZHEN BONDWAY ELECTRONICS CO.LTD

BONDWAY
More Care for your Health

Application

Gravidity analyze and ovulation monitor for mammal such as transgenic sheep and clone sheep; Guide to collect the oocyte of cow; survey the thickness of pig's backside and area of eye muscle; diagnose the diseases of animal.

Specification

- Full digital beamforming technology and crystal-clear image
- Dimension: 400 x 280 x 325mm³
- Image storage: 100 pictures; Cine loop: 256 frames
- OB tabe: 1. BOVINE, 2. EQUINE, 3. OVINE, 4. CANINE, 5. FELINE, 6. GOAT, 7. LLAMA, is reference for doctor with OB report
- One USB port available

30-day dog pregnancy

7-month equine's eye

83-day Bovine pregnancy

25-day swine pregnancy

Optional Probe (Each probe has 4 frequencies)

4.0/5.0/6.5/7.5Mhz Rectal Linear Probe (without handle)

2.0/2.5/4.0/5.0Mhz Rectal Convex Probe

2.0/2.5/3.5/5.0Mhz Convex Array Probe

4.0/5.0/6.0/7.5Mhz Micro-convex Array Probe

5.0/6.5/7.5/9.0Mhz Linear Array Probe

4.0/5.0/6.5/7.5Mhz Rectal Linear Probe (with handle)

Standard configuration

Main unit: 1 PC

4.0/5.0/6.5/7.5Mhz rectal vet probe (multi frequency) :1 PC

Other Optional Parts

Ultrasound video printer
Mitsubishi P93W-Z

Mobile Trolley
UT100
