### AESTHETICS OF SPACE LIFE

The design and arrangement of modern space with light luxury and aesthetic feeling describes the most beautiful space with the least strokes, presenting a simple and extraordinary artistic effect. The appropriate product specifications are more in line with the space application.

# Thickness

Two thicknesses

	10.5mm	Pairs impression	Luxury retro simulation design
	5.5mm	Thin tile	Building burden reduction is safer
	10.5mm	Rhyme	Reproduce natural stone

# Cross-border fashion

Living room space

Toilet space

The collision of technology and ceramics has created a new life and gorgeousness of tiles. Through the improvement and practice of 3D digital inkjet imaging technology, Mona Lisa Tiles has successfully introduced it into the development and production of ceramic tiles, once again upgrading the artistic expression of ceramic tiles. Different thickness, variety of specifications, to meet the needs of different scenarios, such as restaurants, living rooms, bathrooms, store decoration, etc., can be applied according to different scenarios, choose the appropriate specifications, more to meet your needs.

# Rhyme stone

## INHERIT THE FEATURES OF NATURE STONES WITH NEW SCIENCE AND TECHNOLOGY

As a kind of Polished-Glazed tile, Rhyme stone series combines the advantages of Glazed and Polished tiles, and fully express the artistry of porcelain tile.

Roman rhyme stone glazed tile is a new category between antique brick and polished brick. It combines the advantages of both antique brick and polished brick. It is richer in color and better in decorative effect than polished brick. Compared with antique bricks, it is more beautiful and bright, which can create a sense of grandeur. The full polished glazed brick has low water absorption, good antifouling performance and no radiation. Roman Tianyun stone series inkjet printing technology can realize three-dimensional printing, further refine the ceramic tile 3D inkjet imaging technology, the texture is more refined, and the large area fully reproduces the natural stone color, the texture is continuous and complete, and the transition is natural. Suitable for large area paving.

## Features

3D digital inkjet printing technology, the glorious color of the glazed surface makes it more natural.

Craftwork glaze technology, makes it soft and gentle.

# Archaistic ceramic tile

**ITALIAN ORIGINAL CLASSIC DESIGN, AND THE TECHNOLOGY UP TO THE INTERNATIONAL LEADING LEVEL.**

Our nostalgia series tiles are dry glaze technology embedded, archaistic style looking but fashion designed.The introduction of the original Italian design concept, the surface using HD image and 3D digital inkjet printing, combined with European imported digital glue dry granulation machine EVO-DRYFIX equipment, texture level aesthetic effect is outstanding. Adopting high wear-resistant and anti-slip dry glaze, combined with multi-process superposition application technology, the pattern texture can be more natural and delicate through accurate alignment. The product surface adopts Italian matt glaze technology.Glaze glossiness is below 5 degrees, tactility more show soft and elegant and smooth, exceed wear-resisting coefficient can reach 4 class, have the safety performance of high anti-skid. It can be widely used in all kinds of indoor and outdoor space area, with its unique charm to lead the trend of modern fashion antique style.

## Features

-  Introduction of Italian original design concept, combined with European imported digital glue dry grain machine EVO-DRYFIX equipment, pattern texture unique.
-  The product surface adopts Italian matt glaze technology, the glaze gloss is less than 5 degrees, the touch is more elegant and smooth.
-  Adopt high wear-resistant, high anti-slip dry glaze, super wear-resistant coefficient up to 4, with high anti-slip safety performance.
-  Combined with multi-process overlay application technology, the pattern texture can be more natural and delicate through accurate alignment.
-  1200°high temperature firing, no radioactive elements.

# Paris impression

## THE ULTIMATE ROMANCE AND ELEGANCE

Paris Impression series, with the luxury and retro designs, creates a special texture. It reflects the romantic and elegant life ideas deep in people's hearts. Adopting the high temperature crystal grits in the glaze, the surface is shining under the spotlight after they are fired. It combines wax gloss with anti-fouling, anti-wear and anti-skid effects.

## Features

-  New luxury retro simulation design to create a unique color texture
-  With wax glaze technology, it is softer and more comfortable in product texture.
-  Application of high temperature crystallization technology, glazed texture effect is outstanding
-  Special glaze layer multiple protection, anti-slip performance is superior
-  Expand the limit of Glazed tiles application, the style of the space application is more diversified.

# Thin tile

## CREATE AN ENVIRONMENTALLY FRIENDLY LIGHT LIFE

The thin porcelain tiles, designed with the texture of natural stone, sandstone and wallpaper, recreate the true style and feature of natural stone by using the latest stereo ink printing technology. The thickness is only 5.5mm in size 1200x600mm. Lighter in weight, more excellent in performance, it can widely meet the needs of all-space decoration of indoor and outdoor walls and floors, and create a unique style of environmental protection light life.

## Features

Light, thin, energy saving and environmental

plentiful colors, more choices

Fire and heat resistance, building load reduction and safety

More convenient in installation, faster in decoration and lower in cost.
