# ABOUT YAKO

Yako Hardware Manufacturer Co., Ltd is a professional manufacturer in producing architectural hardware products, including the products for doors, windows, furniture, glass, bathroom, kitchenware, stairs and outdoor since 2003. Our main scope is handles, hinges, locks and other accessories for doors.

Covering an area of 6,000 square meters, owning 10 production lines and nearly 200 workers, Yako could offer over 3,000 solutions for architectural projects and interior designs. All of our products are regularly reviewed to ensure the widest range for providing our customers with one-station purchase. We improve the quality control process and confirm prices according to current cost of raw materials in the market to make sure our customers always get the most reasonable deal.

We have accumulated experience and knowledge on how to make our customers satisfied besides product quality. We understand that a responsible after-sales service means the best help and treatment for our customers and we are always proud to have been recognized by our customers in this aspect.

Adhering to "Quality comes first, Customer is supreme", we are more willing to offer competitive prices and samples upon receiving your inquiry. We believe that our high-quality products and excellent customer service will meet your requirements.
